A DECADE OF DECLINE

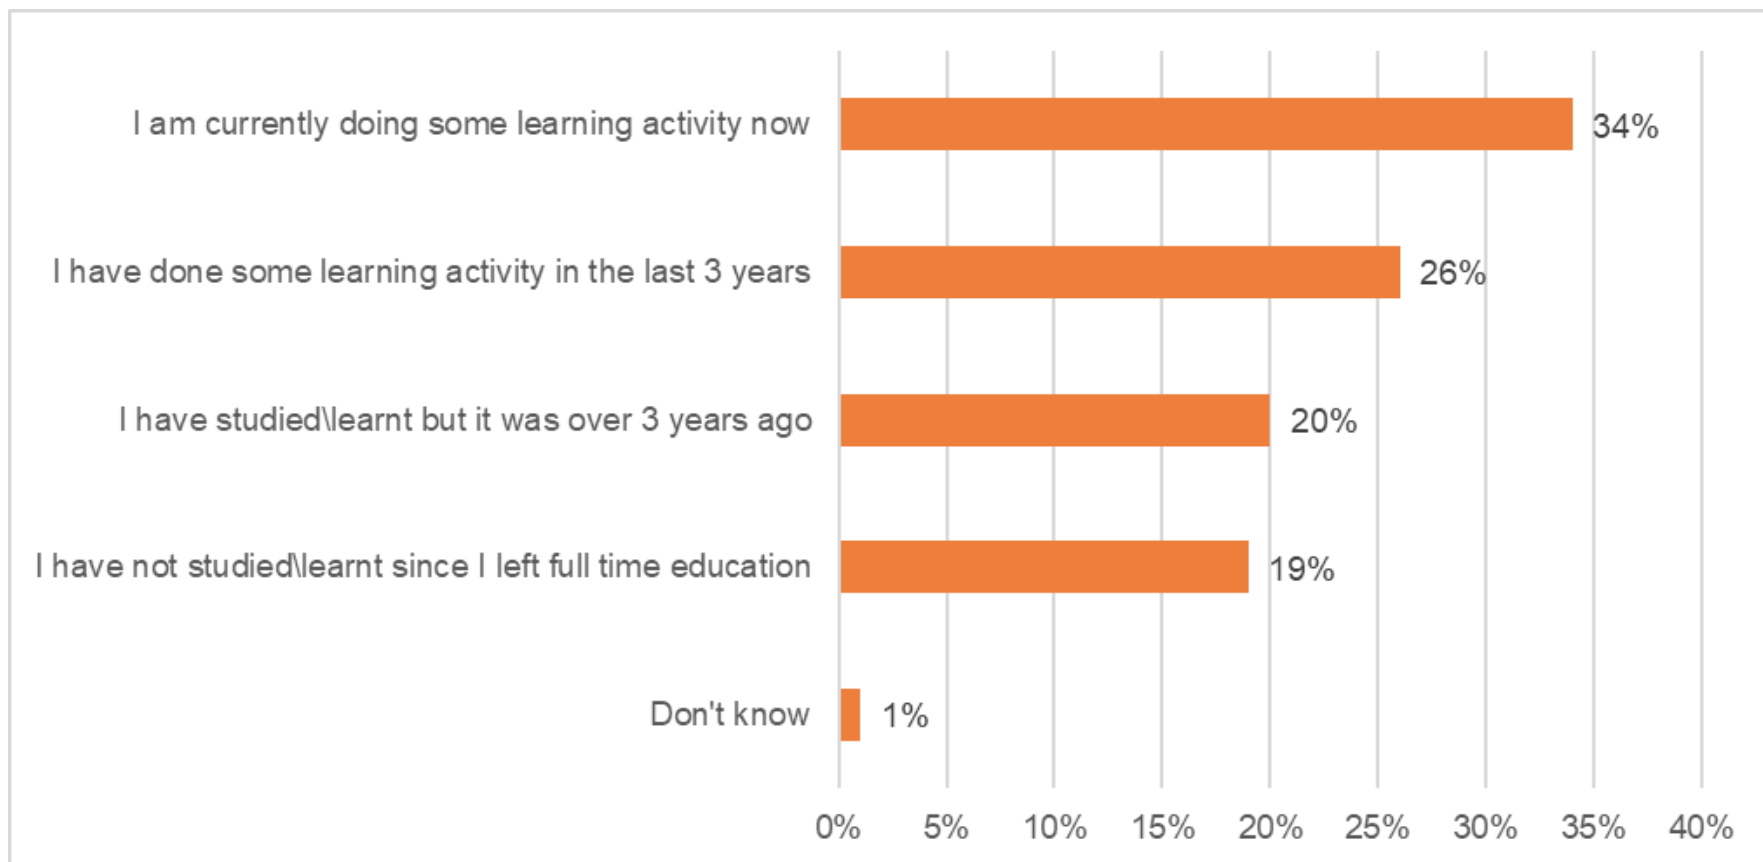

L&W ADULT PARTICIPATION IN LEARNING SURVEY

‘Learning can mean practising, studying or reading about something. It can also mean being taught, instructed or coached. This is so you can develop skills, knowledge, abilities or understanding of something.

Learning can also be called education or training. You can do it regularly (each day or month) or you can do it for a short period of time. It can be full time, or part time, done at home, at work, or in another place like a college.

Learning does not have to lead to a qualification. We are interested in any learning you have done, whether or not it was finished.’
